

Programming Authentication with Azure Active Directory

Lab Time: 60 minutes

Lab Folder: c:\Student\Modules\14 AzureActiveDirectory\Labs

Lab Overview: In this lab you will configure your Azure Active Directory (Azure AD) tenant to provide authentication services to various application types.

Exercise 1: Create a New Azure AD Application

Exercise 2: Authenticate the User from a Native Application

Exercise 3: Authenticate the User from an ASP.NET Web Application

Exercise 4: Authenticate to Establish an App-only Identity

Exercise 5: Authenticate the User in a Single Page Application (SPA)
